

INSTRUCTIONS

Assignment 3

- . Connect to the HPIRegions spreadsheet (note: not the HPIAdmin spreadsheet) in the SourceDataf workbook.
2. Create a folder for the fields starting "Detached", and move them into that folder.
3. Create a viz (stacked bar chart) showing the Date going along the bottom (Year, then Quarter), the Sum of the SalesVolume as the bars, and the RegionName being the color.
4. Highlight the West Midlands Region.
5. Add a filter using the RegionName, add a filter card, and exclude "London" and "England".
6. Create a new shape viz, with SalesVolume running along the bottom, Average of AveragePrice running up the graph, RegionName being the color, and Average of 12m%Change being the size. Exclude London and England.
7. Add the Date to the Page card, using the Year and Quarter.
8. Add labels showing the Minimum and Maximum of the Average of 12m%Change.
9. Add an annotation in the bottom-right corner saying "House Price inflation by region."
10. Change the speed to Fast, and press the play button in the Page card.
